

Revised Tall Storeys Covid Policies

Following the UK Government's announcement that the vast majority of Covid-19 measures will be relaxed from Monday 19th July 2021 we have decided to relax but not abandon Tall Storeys Covid Policies.

We understand that guests staying with us want to make themselves at home, so it is important to strike a balance between feeling relaxed and staying safe. After consulting with our guests, we have decided to adopt a sensible approach to covid precautions as we move forward.

Hand Sanitiser will continue to be provided but will be optional.

Masks will not be required in the guest house by staff and guests, but we respect those who choose to continue to wear them. Staff will keep them on hand and wear them should it make a guest feel more comfortable.

Social Distancing will still be in place, asking guests to keep a reasonable distance from others, a common courtesy we would usually expect.

Ventilation will continue to play a part in preventing the spread with windows opened throughout the building.

Room Furnishings, such as bed throws and cushions, will be returned to rooms and our usual, rigorous cleaning standard maintained.

Individual Portions, such as jams, and condiments will be replaced when stocks run out as we return to more environmentally friendly options.
